**To**

**INCOIS, Hyderabad**

**Respected Sir,**

With the utilization of the advisory provided by INCOIS during cyclones, we could able to save hundreds of life's in addition to the crores of worthy properties. For the great programme/work carried out by INCOIS we will be very deeply debtful to you. Why because we believe ocean as our mother. God felt that sometimes if the mother gets angry, what we will be our condition and hence we felt that God has sent INCOIS to us as a Father. Mother knows how to feed and Father to protect his children, in the same way INCOIS is protecting us. In past i.e., on 06-11-1996, Kakinada area faced a severe cyclone and we lost hundreds of life's . If INCOIS information might have been there at that time, we could have not lost any life. The type of Cyclone hit the Visakhapatnam this time was never seen before in Andhra Pradesh. During such a severe cyclone, even one fishermen has not lost his life. This is all due to your kindness, love, responsibility and affection.

On behalf of entire coastal community, we bow our heads to thank INCOIS. Now with the lives that were saved with your service, we pray the God to give complete hundred years of life filled with good health and happiness to all INCOIS staff and their family members. With this, we thank you once again.

**Yours obediently**

**N.Dharma Rao(Babulu),**
